Shift – Newsletter Article

The San Diego Association of Governments (SANDAG) and the California Department of Transportation (Caltrans) have launched ShiftSanDiego.com, the newest source for transportation solutions, trip planning, and up-to-date construction information.

The purpose of Shift is to help the traveling public make informed transportation choices during construction in the San Diego region. The web portal has all the tools and resources you need to plan a better commute and navigate through construction with real time traffic and transit information, a multi-modal trip planner, and construction updates. Shift is also your connection to incentives and resources that make it easier for you to try a new commute. The site is mobile responsive for on-the-go planning on your smart phone or tablet.

A number of transportation improvements are underway in and around the Golden Triangle. Stay one step ahead and bookmark ShiftSanDiego.com as your go-to resource for transportation and construction information.

Look for the Shift team out and about in the Golden Triangle to assist you with finding the best transportation choice and answer any questions you have about construction. Check ShiftSanDiego.com or find us on social media for current events.

Connect on Facebook at SANDAGregion and Twitter @SANDAG. Search and use #ShiftSanDiego for the latest transportation information and to share how Shift helps you.
